---

### Objective

Motivated Android Developer seeking a Co-Op position at **Dayforce**, leveraging skills in Kotlin, Android development, and agile methodologies. Passionate about creating efficient, user-friendly mobile applications with a strong focus on UI/UX design and performance optimization.

---

### Technical Skills

**Programming Languages:** Kotlin, JavaScript, HTML5, CSS3, Java

**Frameworks/Tools:** Android SDK, Retrofit, Firebase, Git, JSON, RESTful APIs

**Agile Tools:** GitHub

**Testing:** JUnit

**Version Control:** Git, GitHub

**Databases:** SQLite, Firebase Real-time Database

---

### Education

#### Graduate Certificate in Mobile Application Development and Strategy

George Brown College, Toronto | May 2024 – April 2025

- Specialized in designing, testing, and launching mobile apps for Android and iOS.
- Developed proficiency in **Kotlin**, **Swift**, **HTML5**, **CSS3**, and **JavaScript**.

#### Bachelor of Engineering in Information Technology

Sardar Patel University, India | July 2019 – May 2022

- Acquired a solid foundation in IT principles, software development, and computer systems.
- Gained hands-on experience in programming languages like **Java**, **C++**, and **SQL**.

#### High School Diploma

Sheth C.M. Higher Secondary School, Gujarat, India | Graduated: March 2019

- Major subjects included Mathematics, Physics, and Chemistry.

---

## Certifications

- **Google Associate Android Developer** – August 2024  
**Kotlin for Android Developers** – Coursera, April 2024
- 

## Projects

### 1. Personal Finance Manager App

**Role:** Android Developer

**Description:** Developed a native Android app to help users manage personal finances by tracking expenses, setting budgets, and analysing monthly spending patterns.

**Tech Stack:** Kotlin, JSON, Firebase Real-time Database.

**Key Features:**

- Budget creation and expense tracking functionalities.
- Graphical visualizations for monthly expense insights.
- Integrated Google Sign-In for personalized data storage and Firebase for real-time data synchronization.
- Implemented responsive UI adhering to Google's Material Design guidelines.

**Outcome:** Successfully launched the beta version, with over 100+ downloads in its first month.

---

### 2. Task Management App with Agile Sprint Features

**Role:** Android Developer

**Description:** Built a task management app supporting agile methodologies, allowing teams to create sprints, assign tasks, and manage project workloads.

**Tech Stack:** Kotlin, Firebase, JSON, Material Design.

**Key Features:**

- Sprint creation, task assignment, and backlog management.
- Integrated Firebase for real-time task updates and collaboration.
- UI designed to enhance task prioritization and visibility.
- Emphasis on clean architecture and industry-standard code practices.

**Outcome:** Deployed within a university capstone project, resulting in a 30% increase in team productivity.

---

## **Work Experience**

### **Gas Station Associate**

Petro Canada, Etobicoke | September 2023 – Present

- Provided excellent customer service by assisting customers with purchases and resolving queries in a timely manner.
- Managed cash transactions and operated the point-of-sale system efficiently, handling up to \$10,000 daily.
- Maintained stock levels and ensured cleanliness and safety standards were adhered to within the store and forecourt.
- Collaborated with team members to streamline operations during peak hours, resulting in a 15% reduction in customer wait times.
- Regularly performed safety checks and ensured compliance with company health and safety protocols.
